ANNUAL REPORT ON TOBACCO STATISTICS, 1941

Prepared by

the

Agricultural Marketing Service 1/

- - -

---

This is the sixth in a series of annual reports on tobacco statistics authorized and requested by Congress on August 27, 1935. The first three are United States Department of Agriculture Statistical Bulletins 58, 63, and 67; obtainable from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 15 cents a copy. The fourth and fifth are processed publications; obtainable from the Agricultural Marketing Service, U. S. Department of Agriculture, Washington, D. C.

---

1/ This bulletin has been compiled under the direction of a tobacco statistics committee representing the Agricultural Marketing Service, Bureau of Agricultural Economics, Office of Foreign Agricultural Relations, and Agricultural Adjustment Administration, of which Charles E. Gage is chairman, and J. V. Morrow, secretary. The compilations were made by Alice Wolfe, Claudia Thomson, Vivian M. Behenna, and Mary A. Malamphy.

# C O N T E N T S

	<u>Page</u>
Introduction -----	1
Brief classification of leaf tobacco -----	3
Acreage, production, and farm value:	
United States, by classes, types, and States -----	5
United States, total by States -----	12
Foreign, United States, and world production, totals -----	15
Foreign and United States, production of flue-cured -----	16
Prices, leaf:	
By seasons, types, and grades -----	17
Ranges in bids on auction markets -----	30
Prices, products:	
Wholesale -----	31
Retail -----	32
Sales:	
By types and markets -----	33
Country sales -----	38
Income: Cash to growers, by classes and types -----	38
Summary of cigar-leaf grades: Connecticut shade-grown -----	39
Stocks:	
Unstemmed and stemmed, total by quarters -----	40
Converted weight basis, by types and quarters -----	41
Conversion factors -----	55
By types and groups of grades, by quarters -----	56
Burley, by groups and qualities -----	70
Miscellaneous domestic -----	72
Foreign-grown cigar leaf in the United States -----	73
Foreign-grown cigarette and smoking tobacco in the United States -----	74
Consumption:	
Disappearance, farm-sales weight, by types -----	75
Leaf used in manufacture of products -----	78
Products manufactured -----	78
Tax-paid withdrawals by products and months, United States -----	79
Tax-paid withdrawals, by months, of products from the Philippine Islands -----	80
Tax-paid withdrawals, by months, of products from Puerto Rico -----	81
Per capita, United States -----	82
Wages: Manufacturing industries -----	83
International trade:	
Annual, by principal countries -----	84
Annual, by country of origin and destination -----	85
Exports:	
Leaf, by countries and types -----	101
Leaf, total by types, crop year -----	104
Leaf, total by types, calendar year -----	105
Products, total including shipments to noncontiguous territories -----	105
Imports:	
By classes and countries -----	106
By products and countries -----	107
Of cigarette paper for consumption -----	108
Of licorice for consumption -----	108
Of brier, ivy, or laurel root (in blocks) -----	109
Of pipes, with bowls of brier or other wood or root -----	109
Of pipe bowls of brier or other wood or root -----	109
Tariffs:	
Rates on imports into the United States -----	110
Foreign rates on imports from the United States -----	112
Railway freight traffic: Revenue freight originated, quarterly -----	114
Taxes and revenue:	
Current rates of State tax, by products -----	115
Current rates of Federal tax, by products -----	117
Current rates of city tax, by products -----	118
State receipts -----	119
Internal Revenue receipts, by products -----	119
Byproducts diversion programs:	
Dark tobaccos byproducts programs -----	120
Dark tobaccos byproducts programs, by crops and types -----	121
Dark tobaccos, diversion other than byproducts -----	122
Dark tobaccos, total diversion -----	122
Agricultural Conservation Program:	
State acreage allotments -----	123

## I N T R O D U C T I O N

This report is the sixth in a series of annual reports on tobacco statistics authorized and requested by Congress on August 27, 1935. The series presents a broad and comprehensive coverage of statistics on tobacco, with tables based on data gathered and compiled by the Department of Agriculture, together with tables compiled from reports of the Department of Commerce, the Bureau of Internal Revenue, the Bureau of Labor Statistics, and other official sources both in this country and abroad. The 5-year and annual tables are brought up to date in each report, and new tables are frequently added either to be continued in the series or covering some informational phase of tobacco. Occasionally a table is omitted in a report as no additional data are available.

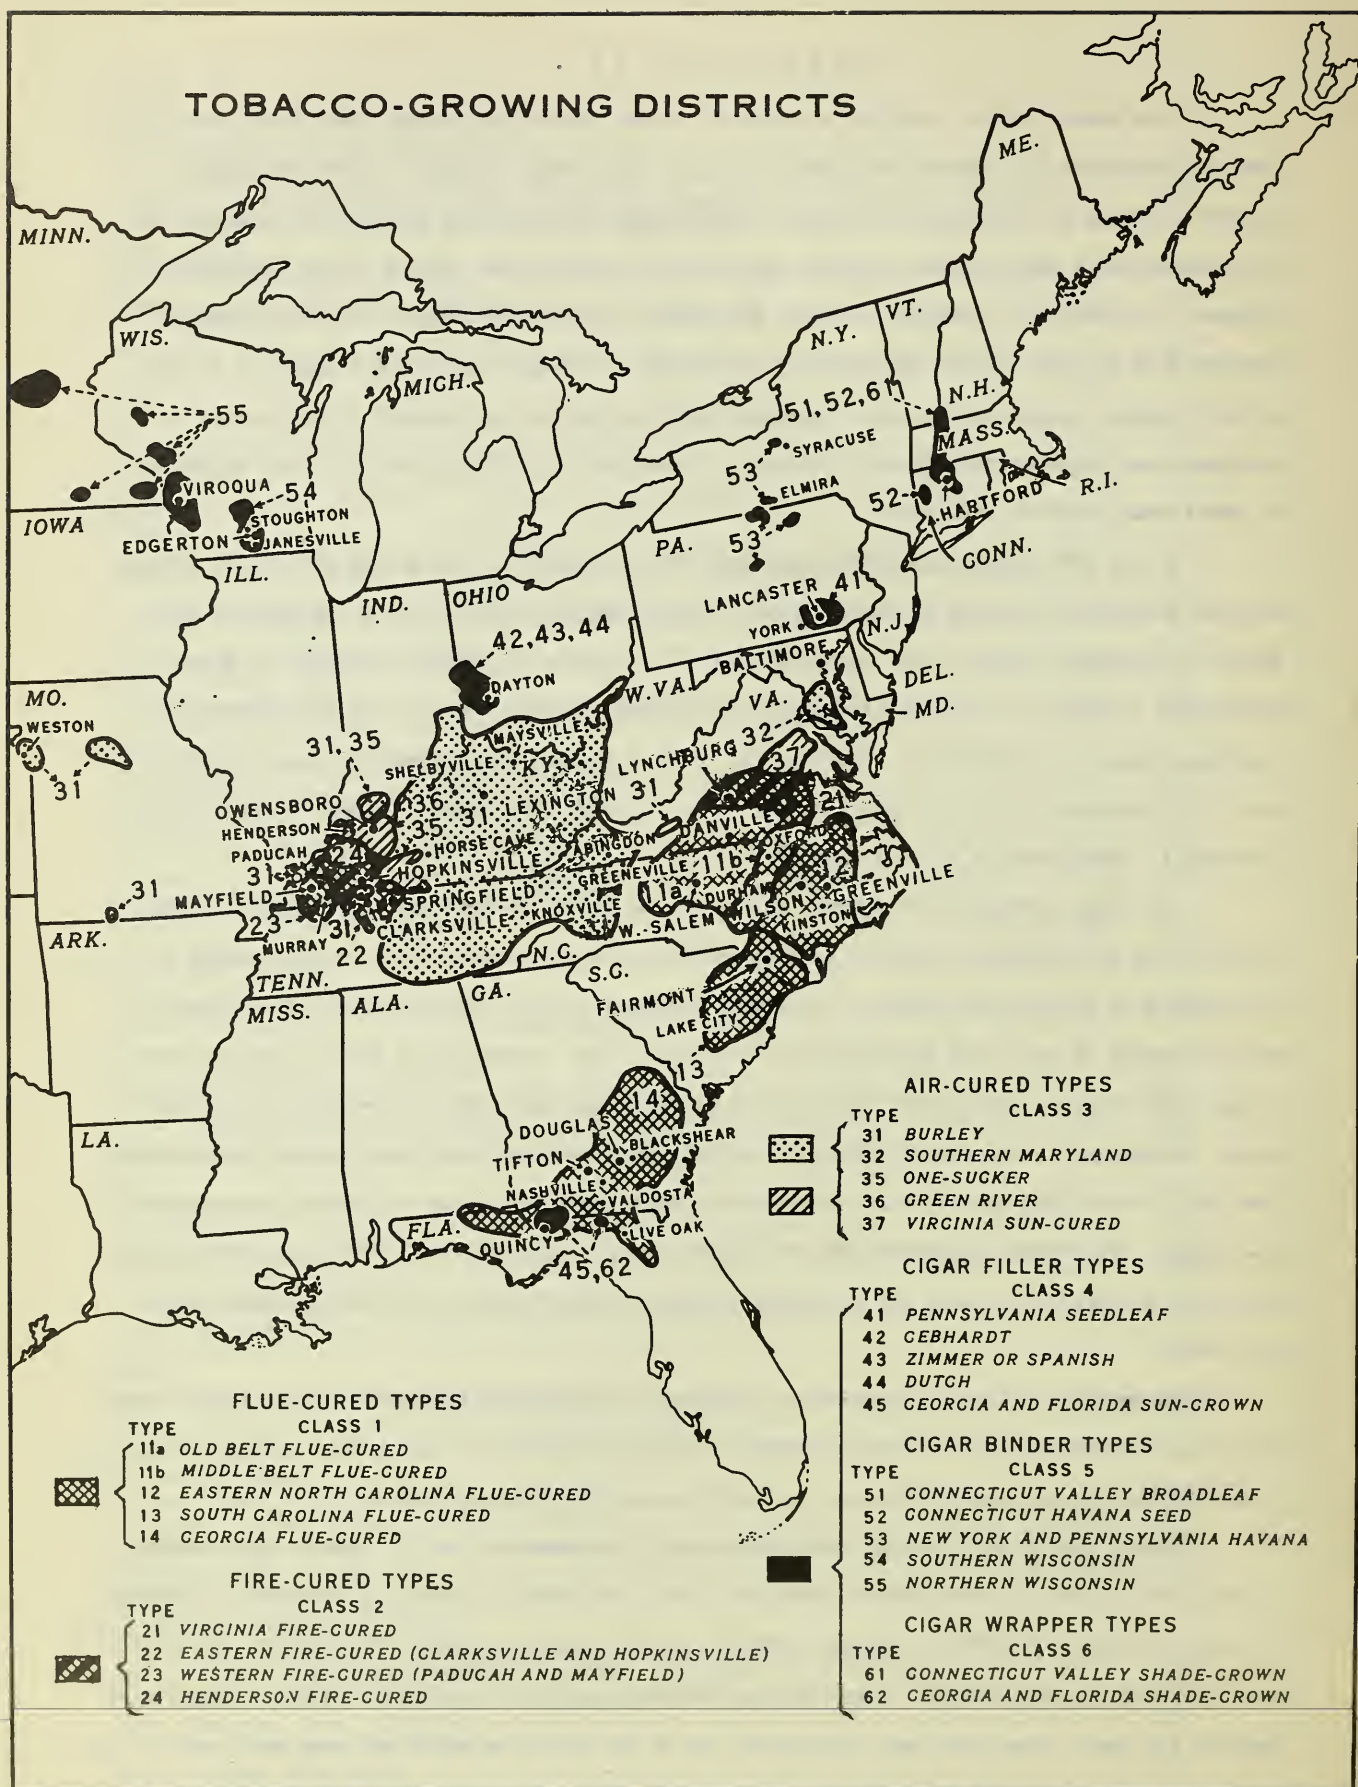

In the 1941 report new tables have been added as follows: (1) Ranges in bids on tobacco auction markets; (2) stocks of Burley tobacco classified according to group and quality from 1936; (3) imports of brier, ivy, or laurel root; (4) imports of pipes, with bowls of brier or other wood or root; (5) imports of pipe bowls of brier or other wood or root; (6) imports of cigarette paper; (7) imports of licorice; (8) revenue freight originated; (9) rates of city tax; (10) byproducts diversion programs for dark tobaccos. The table on wages in the tobacco industry is again carried in this report.

The total production of tobacco in the United States in 1940 was 1,452 million pounds with a value of 229 million dollars as compared with a production of 1,874 million pounds in 1939 valued at 288 million dollars. This is a decrease of more than 22 percent in production and a decrease of more than 20 percent in crop value. The average price for all tobacco sold in the 1940 crop was 15.8 cents, which was .4 cents higher than the 15.4 average of the 1939 crop. Production of flue-cured, light air-cured, dark air-cured, and cigar wrapper tobacco was less than in the 1939 season, and in all cases except light air-cured the season average price was higher. Fire-cured, cigar-filler, and cigar-binder production for 1940 was greater than in the previous season, and with the exception of cigar-filler tobacco, the season average price was lower.

Consumption of tobacco products as indicated by tax-paid withdrawals for the fiscal year beginning July 1940 were as follows: Cigars, more than 5½ million, cigarettes, nearly 190 million, and chewing and smoking tobacco and snuff, about 343 thousand pounds.

Exports during the calendar year 1940 showed a decrease of over 33 percent from exports of the previous year. This decrease was due to war conditions. Exports of leaf tobacco totaled 217 million pounds in 1940 as compared with 327 million pounds in 1939. In table 30 on international trade by countries of origin and destination, several countries which had no exports or imports for years shown have been eliminated, and a few countries which had very small exports or imports have been included in "other countries." Also a few countries which have become important exporting or importing countries since 1936 are included for the first time.

## TOBACCO-GROWING DISTRICTS

## BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes, types, and groups)

## CLASS 1, FLUE-CURED TYPES

Type 11: Old Belt flue-cured; produced in the Piedmont sections of Virginia and North Carolina.

Type 12: Eastern North Carolina flue-cured; produced in the coastal sections of North Carolina, north of the South River.

Type 13: South Carolina flue-cured; produced in the coastal sections of South Carolina and the southeastern counties of North Carolina, south of the South River.

Type 14: Georgia and Florida flue-cured; produced in southern Georgia and northern Florida.

Groups applicable to Types 11, 12, 13, and 14:

A, wrappers. B, leaf and smoking leaf.  
C, cutters. X, lugs and primings. S, scrap.  
N, nondescript.

## CLASS 2, FIRE-CURED TYPES

Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.

Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkinsville; produced in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.

Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, Murray, and Paducah; produced in a section between the Tennessee, Ohio, and Mississippi Rivers in western Kentucky and northwestern Tennessee.

Type 24: Henderson Stemming or Northern fire-cured; produced in Webster, Hopkins, McLean, Union, and Henderson Counties of Kentucky.

Groups applicable to Types 21, 22, 23, and 24:

A, wrappers. B, heavy leaf. C, thin leaf.  
X, lugs. S, scrap. N, nondescript.

## CLASS 3, AIR-CURED TYPES

Type 31: Burley; produced in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.

Groups applicable to Type 31:

A, wrappers. B, bright leaf, red leaf, and tips. C, lugs, and cutters. X, trash and flyings. S, scrap. N, nondescript.

Type 32: Southern Maryland; produced in five counties of southern Maryland - Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

Groups applicable to Type 32:

B, heavy leaf or dull crop. C, thin leaf or bright crop. X, seconds and ground leaves.  
S, scrap. N, nondescript.

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.

Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.

Type 37: Virginia sun-cured; produced in central Virginia, north of the James River.

Groups applicable to Types 35, 36, and 37:

A, wrappers. B, heavy leaf. C, thin leaf.  
X, lugs. S, scrap. N, nondescript.

## CLASS 4, CIGAR-FILLER TYPES

Type 41: Pennsylvania Seedleaf; produced in Lancaster County, Pa., and the adjoining counties.

Groups applicable to Type 41:

B, binders or tops. C, fillers (farm wrappers).  
X, stemming grades. Y, farm fillers or ground leaves. S, scrap. N, nondescript.

Type 42: Gebhardt; produced in the Miami Valley Section of Ohio and extending into Indiana.

Type 43: Zimmer; produced in the Miami Valley section of Ohio and extending into Indiana.

Type 44: Dutch; produced in the Miami Valley section of Ohio.

Groups applicable to Types 42, 43, and 44:

C, fillers (farm wrappers). X, stemming grades.  
Y, farm fillers or ground leaves. S, scrap.  
N, nondescript.

Type 45: Georgia and Florida sun-grown; produced in southwestern Georgia and north-central Florida.

Groups applicable to Type 45:

B, binders. C, fillers. X, stemming grades.  
Y, ground leaves. S, scrap. N, nondescript.

Type 46: Puerto Rican sun-grown (including primed (Deshojado) and stalk-cut (Mata)); produced on the island of Puerto Rico.

Groups applicable to Type 46:

C, superior (tripas, medios, coronas, etc.).  
X, inferior (pie inferior, tripa inferior, pajizas, rezagos, etc.). Y, defectuosos (boliche, sentido, cacho duro, amarillo, salcochado, etc.).  
S, scrap (pedazos and picadura). N, nondescript (averiado and mohoso).

## CLASS 5, CIGAR-BINDER TYPES

Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.

Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.

Groups applicable to Types 51, 52, and 53:

A, wrappers. B, binders, seconds, and brokes. C, fillers and short darks. X, stemming grades. Y, sand-leaf fillers or ground leaves. S, scrap. N, nondescript.

Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.

Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

Groups applicable to Types 54 and 55:

B, binders. C, fillers. X, stemming grades. Y, sand-leaf fillers or bottom leaves. S, scrap. N, nondescript.

## CLASS 6, CIGAR-WRAPPER TYPES

Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.

Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

Groups applicable to Types 61 and 62:

A, wrappers. B, stout wrappers and binders. C, fillers or tips. X, filler brokes. S, scrap. N, nondescript.

## MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

Type 71: Eastern Ohio (flue-cured, fire-cured, or air-cured).

Type 72: Louisiana Perique.

Type 73: All domestic types of tobacco not otherwise classified.

## FOREIGN TYPES

Type 81: Cuba (Havana).

Type 82: Sumatra and Java.

Groups applicable to Types 81 and 82:

A, wrappers. C, fillers. S, scrap.

Type 83: Philippine Islands (Manila).

Groups applicable to Type 83:

C, fillers. S, scrap.

Type 84: All foreign-grown cigar leaf not otherwise classified.

Type 90: Foreign-grown cigarette and smoking tobacco (Turkish and other).

Table 1.-Acreage, yield per acre, production, price per pound, and crop value of tobacco, total in the United States, by classes, by types, and by types within States, 1936-40

1938	91,500	1,177	107,651	15.4	15,646	1941					

1/ Crop value represents production multiplied by average price per pound. The term is used to avoid confusion with "income" as shown on a calendar-year basis in table 10 and in the multilith publication, Income Parity for Agriculture, pt. I, sec. 2.

2/ Subject to revision.

3/ Including loss after harvest as a result of hurricane and flood estimated as follows: Broadleaf (type 51) 3,820,000 pounds; Havana Seed (type 52) 1,547,000 pounds; and Shade (type 61) 588,000 pounds. Price and value apply only to the marketable portion of the crop.

1936						1939	600	683	410	12.0	49
1937	300	817	245	19.2	47	1940 <sup>2/</sup>	500	830	415	15.7	65
1938	500	818	409	19.1	78	1941					

<sup>1/</sup> Crop value represents production multiplied by average price per pound. The term is used to avoid confusion with "income" as shown on a calendar-year basis in table 10 and in the multilith publication, Income Parity for Agriculture, pt. I, sec. 2.

<sup>2/</sup> Subject to revision.

<sup>3/</sup> Including loss after harvest as a result of hurricane and flood estimated as follows: Massachusetts - 1,258,000 pounds, and Connecticut - 4,697,000 pounds. Price and value apply only to the marketable portion of the crop.

1/ The year beginning July includes the harvesting season in both Northern and Southern Hemispheres. In Northern Hemisphere, data for 1936, for example, are for crops harvested in summer and fall of 1936; in Southern Hemisphere they are for crops harvested in spring of 1937. For many countries bordering on the Equator, harvest started late in 1936 and was completed in early months of 1937. Countries listed in this table produce approximately 95 percent of the tobacco of the world.

2/ Preliminary. Figures for earlier years may be revised on basis of later information.

3/ Burma became independent from British India in April 1937.

4/ Data shown are for 20 Provinces only, but missing data are of slight importance. Data for 1938 are for 14 provinces, only.

5/ British India and reporting native States; Burma not included.

6/ European estate production and native production of Blad tabak (high grade leaf) bought up by European estates from natives plus official estimate of exports of native-grown Krossok (low grade leaf) produced off estates.

7/ Excluding China.

Bureau of Agricultural Economics. Compiled from official sources, International Institute of Agriculture, and reports of United States consuls, commercial attaches, agricultural attaches, and commodity specialists in foreign countries.

Total reporting countries .:	1,007,741	1,297,635	1,131,625	<sup>8/</sup> 1,613,365	

<sup>1/</sup> Estimated production of other types, by countries, are omitted from this publication pending a possible reclassification in certain important producing countries.

<sup>2/</sup> The year beginning July includes the harvesting season in both Northern and Southern Hemispheres. In Northern Hemisphere, data for 1936, for example, are for crops harvested in summer and fall of 1936; in Southern Hemisphere they are for crops harvested in spring of 1937. For many countries bordering on the Equator, harvest started late in 1936 and was completed in early months of 1937.

<sup>3/</sup> Preliminary. Data for earlier years may be revised on basis of later information.

<sup>4/</sup> Estimated.

<sup>5/</sup> Smaller crop resulted from unfavorable weather, parasites, and diseases, which destroyed much of the area set.

<sup>6/</sup> Of this amount, a portion was produced from flue-cured seed but was sun-cured.

<sup>7/</sup> Grown in Java.

<sup>8/</sup> Incomplete. Production for Argentina and the Netherlands Indies, included in other years, not available for 1939.

Bureau of Agricultural Economics. Compiled from official sources, reports of United States consuls, commercial attaches, agricultural attaches, and commodity specialists in foreign countries.

Table 5.-Season average prices per 100 pounds of tobacco, by types and grades, on representative markets, 1936-40 - Cont'd

1/ Key to standard grade marks for flue-cured tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Special factor</u>
A, wrappers.	1, choice.	L, lemon.	V, greenish.
B, leaf.	2, fine.	F, orange.	M, mixed.
H, smoking leaf.	3, good.	R, red.	K, variegated.
C, cutters.	4, fair.	D, dark red.	W, doubtful keeping order.
X, lugs.	5, low.	G, green.	U, unsound.
P, primings.	6, common.	(L) light shade.	
N, nondescript.		(F) medium shade.	
		(D) dark shade.	

2/ Comparable figures are not available for 1938.

3/ Averages based on auction sales and Association deliveries at advance prices.

4/ Key to standard grade marks for fire-cured tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Length</u>	<u>Special factor</u>
A, wrappers.	1, choice.	L, light.	46, 24 to 28 inches.	V, greenish.
B, heavy leaf.	2, fine.	F, brown.	45, 20 to 24 inches.	K, variegated.
C, thin leaf.	3, good.	D, dark.	44, 16 to 20 inches.	W, doubtful keeping order.
T, short leaf.	4, fair.	M, mixed.		U, unsound or damaged under 20 percent.
X, lugs.	5, low.	G, green.		
N, nondescript.				

5/ Key to standard grade marks for Burley tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Special factor</u>
A, wrappers.	1, choice.	L, buff or straw.	V, greenish.
B, leaf.	2, fine.	F, tan.	M, mixed.
T, tips.	3, good.	R, red.	K, variegated.
C, lugs or cutters.	4, fair.	D, dark red.	W, doubtful keeping order.
X, flyings.	5, low.	G, green.	U, unsound or damaged under 20 percent.
N, nondescript.		(L) light shade.	
		(F) medium shade.	
		(R) dark shade.	

6/ Key to standard grade marks for dark air-cured tobacco:

<u>Group</u>	<u>Quality</u>	<u>Color</u>	<u>Length</u>	<u>Special factor</u>
B, heavy leaf.	1, choice.	L, light.	46, over 24 inches.	V, greenish.
T, tips.	2, fine.	F, brown.	45, 20 to 24 inches.	K, variegated.
C, thin leaf.	3, good.	R, red.	44, 16 to 20 inches.	W, doubtful keeping order.
X, lugs.	4, fair.	D, dark.		U, unsound or damaged under 20 percent.
N, nondescript.	5, low.	M, mixed.		
		G, green.		

7/ No government grading.

Table 6.-Ranges of bids on tobacco auction markets, by types, in effect 1940-41 season

	: Type : : number :	Ten Cents	: Twenty-five : cents :	: Fifty cents :	: One dollar :
Flue-cured	: 11-14 :	---	Under \$15.00	\$15.00 to \$25.00	Over \$25.00
Virginia fire-cured	: 21 :	Under \$6.00	\$6.00 to \$15.00	\$15.00 to \$25.00	Over \$25.00
Tennessee and Kentucky fire-cured	: 22 :	---	Under \$20.00	\$20.00 to \$30.00	Over \$30.00
Kentucky and Tennessee fire-cured	: 23 :	Under \$5.00	\$5.00 to \$20.00	\$20.00 to \$30.00	Over \$30.00
Henderson Stemming	: 24 :	---	Under \$20.00	\$20.00 to \$30.00	Over \$30.00
Burley <u>1/</u>	: 31 :	---	Under \$15.00	\$15.00 to \$30.00	Over \$30.00
Southern Maryland	: 32 :	---	Under \$15.00	\$15.00 to \$25.00	Over \$25.00
One Sucker	: 35 :	---	Under \$20.00	\$20.00 to \$30.00	Over \$30.00
Green River	: 36 :	---	Under \$20.00	\$20.00 to \$30.00	Over \$30.00

1/ On some Burley markets fifty cent bid was from \$15.00 to \$25.00, and one dollar bid over \$25.00.

<sup>1/</sup> Prices were obtained from approximately 4 dealers in each of 32 large cities as of the 15th of the month, for the brand and/or package size most in demand in their stores, and have been weighted by population of the metropolitan areas and of adjacent areas, where the retail prices were obtained. Sales taxes are included wherever applicable.

<sup>2/</sup> Representing an average of cigars selling for 5 cents or less.

<sup>3/</sup> Pricing of cigarette tobacco and plug discontinued after March 1939.

<sup>4/</sup> Preliminary.

Bureau of Agricultural Economics. Compiled from reports of the Bureau of Labor Statistics, Department of Labor.

Total	1,285,014,598	204,304,887	15.90	1,689,359,983	257,847,381	15.26

1/ Includes Association deliveries at advance prices.

2/ Includes country sales.

3/ Gross sales.

4/ Includes Camp Taylor, Ky.

5/ No market.

6/ Producers' sales for the 1940 crop include over 2 million pounds of non-warehouse sales.

Resales amount to approximately 6.9 percent of gross warehouse sales. Producers' sales for the 1939 crop estimated.

7/ Sales represent a combination of hogshead sales on the Baltimore market, auction sales on the markets of Hughesville, La Plata, Upper Marlboro, and Waldorf, and direct sales between grower and dealer.

8/ In addition to total warehouse auction sales of the 1940 crop, it is estimated that from 35 to 40 million pounds of scrap were sold by growers outside regular auction channels at an approximate average of \$2.50 per hundred. Sales of scrap in the 1939 crop were from 35 to 40 million pounds at an average of about \$2 per hundred.

Compiled from reports of State departments of agriculture; trade reports; records of the Agricultural Adjustment Administration; and data obtained direct from markets and trade sources by field representatives.

Table .-Stocks of leaf tobacco, by types as reported and on a converted weight basis, owned by dealers and manufacturers in the United States, quarterly, 1936-40 1/ - Cont'd

1/ For factors used in converting various weights, see table 15. For earlier data and for more detailed information on weight losses, see U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937.

2/ Figures are sums of types 22 and 23, computed separately.

3/ In October 1939 and January 1940, a conversion factor of 1.10 was applied to 350 and 400 million pounds respectively of the unstemmed stocks, and 1.12 to the balance. Beginning April 1940, a conversion factor of 1.11 was applied to all unstemmed stocks.

4/ Stocks of type 41 have been revised deducting 5 million pounds from unstemmed stocks reported each quarter.

5/ Figures are sums of types 42, 43, and 44, computed separately.

6/ Figures are sums of stocks in continental United States and Puerto Rico, computed separately.

7/ Figures are sums of types 54 and 55, computed separately.

Table 15.-Conversion factors for adjusting for losses in weight incident to stemming, handling, sweating, and drying, all types of tobacco

Type	Factors to multiply by to convert various weights				
	U.S. :	Stemmed		Unstemmed	
	type :	Stemmed to	To	To	processing
	number :	unstemmed	farm-sales	processing	to stemmed

1/ For stocks of Burley tobacco by qualities, see table 17.

2/ This group is not found in this type.

3/ Stocks of type 41 have been revised deducting 5 million pounds from stocks of the C group reported each quarter.

4/ B group added in October 1937 to include stocks of binder type sun-grown tobacco produced in Georgia and Florida.

1/ Stocks as of July 1 and disappearance beginning July 1.

2/ Stocks shown represent those held by dealers and manufacturers who are required by law to file quarterly reports. Farm-sales weight is calculated by converting stemmed to unstemmed and storage weight to farm-sales weight, by allowing for normal losses of dirt, sand, moisture, and stem in handling and preparing tobacco.

3/ Preliminary.

4/ Stocks as of January 1 of year following production, and disappearance beginning January 1 of year following production.

5/ Production (for the crop year beginning July) and price compiled from annual reports of the Governor of Puerto Rico. Stocks are as of January 1 in the crop year and include stocks held by dealers and manufacturers both in the United States and on the Island of Puerto Rico.

6/ Including loss after harvest as a result of hurricane and flood estimated as follows: Broad-leaf (type 51) 3,820,000 pounds; Havana Seed (type 52) 1,547,000 pounds; and Shade (type 61) 588,000 pounds.

Bureau of Agricultural Economics. Production, stocks, and price compiled from reports of the Agricultural Marketing Service.

Table 22.-Leaf tobacco used in the manufacture of cigars, cigarettes, and tobacco and snuff in the United States, 1935-39 <sup>1/</sup>

Year	Cigars		Cigarettes		Tobacco and snuff	Total
	Large	Small	Large	Small		
	1,000 lb.	1,000 lb.	1,000 lb.	1,000 lb.	1,000 lb.	1,000 lb.
1935	113,066	676	14	399,444	262,732	775,932
1936	125,875	703	12	453,315	267,462	847,367
1937	127,880	773	19	479,943	264,309	872,924
1938	118,162	590	14	483,826	262,710	865,302
1939	122,072	609	25	509,108	253,485	885,299

<sup>1/</sup> The quantities given are unstemmed processing-weight equivalent of all kinds of tobacco used. Stemmed leaf and scraps, etc., used in manufacturing have been converted to unstemmed equivalent at the ratio of 3 pounds stemmed to 4 pounds unstemmed.

Compiled from annual reports of the Commissioner of Internal Revenue.

1/ Pounds of cigars and cigarettes represent unstemmed equivalent of tobacco used in the manufacture of these products, as reported in the annual reports of the Commissioner of Internal Revenue. Both large and small cigars and large and small cigarettes are included.

2/ Tax-paid withdrawals of manufactured tobacco have been separated into chewing tobacco and smoking tobacco in proportion to production of these two products.

3/ Preliminary.

Bureau of Agricultural Economics. Compiled from tax-paid withdrawals in the United States (including tax-paid withdrawals of tobacco products from the Philippine Islands and Puerto Rico) reported in monthly statements by the Commissioner of Internal Revenue, and July population from reports of the Bureau of the Census.

<sup>1/</sup> The item for wage earners is an average of the numbers reported for the several months of the year and includes both full-time and part-time workers. The quotient obtained by dividing the amount of wages by the average number of wage earners should not, therefore, be accepted as representing the average wage received by full-time wage earners.

<sup>2/</sup> Cost of materials, containers, fuel, purchased electric energy, and internal revenue stamps.

<sup>3/</sup> Preliminary.

Compiled from United States Census of Manufactures and reports of the Bureau of the Census.

Total .....	17,491	20,549	14,760	28,436	20,906	

1/ The export statistics in this table are on the basis of crop years. Crop years are as follows: Flue-cured, year beginning July; Maryland, year beginning January of year following production; all other types, year beginning October. These figures do not include shipments to Puerto Rico; no shipments were made to Alaska and Hawaii.

2/ Preliminary. 3/ Includes Hong Kong and Kwantung.

4/ Beginning May 6, 1938, the United States trade with Germany includes Austria; for comparable figures in earlier years add Austria and Germany. 5/ Exclusive of Algeria, Tunisia, and Madagascar.

6/ Includes Gold Coast, Nigeria, and other British West Africa. 7/ Includes Canary Islands.

8/ Includes Eastern Ohio, type 71. 9/ Includes 1,682,000 pounds to Germany.

10/ Black Fat, Water Baler, and Dark African are composed principally of fire-cured and One Sucker tobacco, which have been treated with oils and greases, packed in boxes, bales, and tierces, and subjected to heavy pressure. Approximate percentages are two-thirds One Sucker and one-third fire-cured. In some cases a small amount of flue-cured might be substituted for that portion of one of the other types. 11/ Exclusive of Mozambique. 12/ Exclusive of Bermuda, Barbados, Jamaica, Trinidad and Tobago. 13/ Less than 500 pounds.

Bureau of Agricultural Economics. Compiled from Monthly Summary of Foreign Commerce of the United States and official records of the Bureau of Foreign and Domestic Commerce. Export weight.

Cheroots of all kinds	: 605 :	3.60 per lb. plus 20 percent ad valorem	12/ 2.25 per lb. plus 12½ percent ad valorem
Cigarettes of all kinds	: 605 :	3.60 per lb. plus 20 percent ad valorem	13/ 1.80 per lb. plus 10 percent ad valorem

1/ Rates are as of August 1, 1940.

2/ Tobacco imported from the Philippine Islands is free of duty except that imports of the following items from the Philippines after December 31, 1939, in excess of the specified quotas shall pay the duty applicable to imports from countries other than Cuba:— Original quotas are for the calendar year 1940 and for each calendar year thereafter through the calendar year 1945, each of said quotas shall be the same as the corresponding quota for the immediately preceding calendar year, less 5 per centum of the corresponding original quota. The original quota for cigars (exclusive of cigarettes, cheroots, and paper cigars and cigarettes including wrappers) two hundred million cigars. The original quota for scrap tobacco, and stemmed and unstemmed filler tobacco described in paragraph 602 of the Tariff Act of 1930, four million five hundred thousand pounds. For the period January 1, 1946, through July 3, 1946, each of said quotas shall be one-half of the corresponding quota specified for the calendar year 1945.

Continued -

Table 42.-Tariff rates on tobacco and tobacco products imported into the United States; established by the Tariff Act of 1930, and subsequent changes - Cont'd

- 3/ This rate was established by the Netherlands Trade Agreement, which became effective February 1, 1936. From that date until June 30, 1936, the rate on unstemmed wrapper tobacco was \$1.875, and on stemmed wrapper tobacco, \$2.525. The present reduced rates on this tobacco have been in effect since July 1, 1936.
- 4/ The rate was reduced under the Trade Agreement with Turkey, effective May 5, 1939.
- 5/ The rate was reduced under the Trade Agreement with the United Kingdom, effective January 1, 1939.
- 6/ Under the treaty of commercial reciprocity concluded between the United States and Cuba in 1902, which is continued in effect by section 316 of the Tariff Act of 1930, imports of Cuban tobacco into the United States are entitled to a reduction of 20 percent from the prevailing rate paid by any other country. The only exception to this rule was the Cuban Trade Agreement of September 3, 1934, which established specific rates for certain classes of tobacco; the tobacco concessions of this agreement were terminated March 16, 1936. The rates above listed for tobacco from Cuba have been computed by applying the 20 percent preferential reduction first to the rates established in the Tariff Act of 1930, and, for the present rate, to the reduced rates granted by existing Trade Agreements with other countries.
- 7/ From September 3, 1934, to March 16, 1936, the rate on unstemmed wrapper tobacco was \$1.50 per pound under the Cuban Agreement; the Agreement also provided that total imports of tobacco and tobacco products from Cuba were subject to a quota of 18 percent of tobacco used in manufacture of cigars in the United States during preceding year. With the termination of tobacco concessions in the Cuban Agreement, the Cuban duty became based on the new rates established under the Trade Agreement with the Netherlands. From February 1 until June 30, 1936, the Netherlands rate was \$1.875 per pound; after that date it was further reduced to \$1.50. The Cuban duty for both periods became 20 percent less than the Netherlands rate. The Supplementary Trade Agreement with Cuba, effective December 23, 1939, did not change this rate.
- 8/ Under the Netherlands Trade Agreement, effective February 1, 1936, the rate on stemmed wrapper tobacco was reduced to \$2.525 per pound for the period February 1 to June 30, after which a further reduction to \$2.15 per pound was made. The Cuban duty in the earlier period and at the present time, is 20 percent less than that established in the Netherlands agreement.
- 9/ Reduced as a result of the Trade Agreement with Turkey, effective May 5, 1939, in which the rate on unstemmed cigarette leaf, n.s.p.f. became 30 cents per pound.
- 10/ Under the Cuban Agreement, from September 3, 1934, to March 16, 1936, the rate on unstemmed filler tobacco (including cigarette leaf n.s.p.f.) was set at 17½ cents per pound, and on stemmed filler tobacco at 25 cents per pound; total imports of Cuban tobacco and tobacco products during this period were subject to a quota of 18 percent of tobacco used in manufacture of cigars in the United States during the preceding year. With the termination of tobacco concessions in the Cuban Agreement, the rates returned to the 1930 Tariff Act level. The Supplemental Cuban agreement, effective December 23, 1939, restored the rates of the original Cuban Agreement on filler tobacco other than cigarette leaf stemmed and unstemmed. The Supplemental Cuban agreement limits the application of reduced rates on stemmed or unstemmed filler tobacco (other than cigarette leaf) and scrap tobacco to a total quantity of 22,000,000 pounds (unstemmed equivalent) in any calendar year, imports in excess of this quantity becoming subject to duty as if not mentioned in the Supplemental Agreement but not to rates higher than those in effect just prior to the original Cuban agreement.
- 11/ Reduced as a result of the Trade Agreement with the United Kingdom, effective January 1, 1939, in which the rate on tobacco, manufactured or unmanufactured n.s.p.f. became 35 cents per pound.
- 12/ Under the Cuban Trade Agreement, from September 3, 1934, to March 16, 1936, the rate on scrap tobacco was set at 17½ cents per pound, and on cigars and cheroots of all kinds at \$2.25 per pound plus 12½ percent ad valorem; total imports of Cuban tobacco and tobacco products during this period were subject to a quota of 18 percent of tobacco used in manufacture of cigars in the United States during the preceding year. With the termination of tobacco concessions in the Cuban Agreement, the rates returned to the 1930 Tariff Act level. The Supplemental Cuban Agreement restored these rates to their level under the original Cuban agreement and established the quota on scrap and filler tobacco described in footnote 10/.
- 13/ Under the Cuban Trade Agreement, from September 3, 1934, to March 16, 1936, the rate on cigarettes was set at \$2.25 cents per pound plus 12½ percent ad valorem, with a quota limit on total imports of tobacco and tobacco products from Cuba of 18 percent of tobacco used in manufacture of cigars in the United States during the preceding year. With the termination of the tobacco concessions in the Cuban Agreement, this rate returned to the 1930 Tariff Act level. The Trade Agreement with the United Kingdom, effective January 1, 1939, reduced the rate on cigarettes to \$2.25 cents per pound plus 12½ percent ad valorem, and the present Cuban rate is derived from this latter duty.

Office of Foreign Agricultural Relations.

This tabulation brings to date tables on foreign import duties on United States tobacco published in earlier Annual Reports on Tobacco Statistics. Countries where no changes in duties have occurred since publication of the last Annual Report are not included in this report. For most of the countries included in these tables, tobacco imports have been made subject to other forms of restriction, including control of exchange for the payment of imports, import license, prohibition, etc.

Table 45.-Rates of State tax on tobacco products in effect July 1, 1941 - Cont'd

State	Date tax first went into effect:	Product and rate of tax
Kansas	1927	Cigarettes, 2 cents for each 20 or fraction thereof.
Kentucky	1936	Cigarettes, 1 cent for each 10 cents or fraction thereof of retail price.
Louisiana	1926	Cigars weighing more than 3 pounds per 1,000, retailing for - (a) 8 cents each or less, \$2 per thousand. (b) More than 8 and not more than 15 cents each, \$5 per thousand. (c) More than 15 and not more than 20 cents each, \$20 per thousand. (d) More than 20 cents each, \$27.00 per thousand. Weighing not more than 3 pounds per 1,000, 75 cents per thousand. Cigarettes, $2\frac{1}{2}$ mills each. Smoking tobacco, 1-1/3 cents for each 5 cents or fraction thereof of retail price.
Massachusetts	1939	Cigarettes, 1 mill each.
Mississippi	1930	Cigars, cheroots, stogies, and smoking tobacco, 1 cent for each 5 cents or fraction thereof of retail price. Cigarettes, 1/5 cent each.
New Hampshire	1939	All products, 15 percent of retail price.
New York	1939	Cigarettes, 1 cent for each 10 or fraction thereof.
North Dakota	1925	Cigarettes weighing more than 3 pounds per 1,000, 2 mills each. Weighing not more than 3 pounds per 1,000, $1\frac{1}{2}$ mills each. Papers, $\frac{1}{2}$ cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof. Snuff, 2 cents for each $1\frac{1}{4}$ ounces or fraction thereof.
Ohio	1931	Cigarettes, 1 cent for each 10 or fraction thereof.
Oklahoma	1935	Cigars, retailing for - (a) 3-1/3 cents each or less, \$5 per thousand. (b) More than 3-1/3 cents each, \$10 per thousand. Cigarettes, when packed in quantities of - (a) 10 or less, $1\frac{1}{2}$ cents per package. (b) More than 10 and not more than 20, 5 cents per package. (c) More than 20 and not more than 50, $7\frac{1}{2}$ cents per package. \$1.50 per thousand. Smoking and chewing tobacco, 20 percent of factory list price.
Pennsylvania	1935	Cigarettes, 1 cent for each 10 or fraction thereof.
Rhode Island	1939	Cigarettes, 1 mill each.
South Carolina	1923	Cigars weighing more than 3 pounds per 1,000, retailing for more than 3-1/3 cents each, \$10 per thousand. Weighing not more than 3 pounds per 1,000, 1 cent for each 10 or fraction thereof. Cheroots, stogies, etc., weighing more than 3 pounds per 1,000, retailing for 3-1/3 cents each or less, \$3 per thousand. Cigarettes, 1 cent for each 5 cents or fraction thereof of retail price. Smoking tobacco, 1 cent for each 5 cents or fraction thereof of retail price. Chewing tobacco and snuff, 1 cent for each 3 ounces or fraction thereof.
South Dakota	1923	Cigarettes weighing more than 3 pounds per 1,000, 4 mills each. Weighing not more than 3 pounds per 1,000, $1\frac{1}{2}$ mills each. Papers, $\frac{1}{2}$ cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof.

Table 45.-Rates of State tax on tobacco products in effect July 1, 1941 - Cont'd

State	Date tax : first went : into effect:	Product and rate of tax
Tennessee	1925	Cigars, cheroots, stogies, etc., retailing for - (a) 3-1/3 cents each or less, \$1 per thousand. (b) More than 3-1/3 and not more than 5 cents each, \$2 per thousand. (c) More than 5 and not more than 9 cents each, \$3 per thousand. (d) More than 9 and not more than 10 cents each, \$5 per thousand. (e) More than 10 and not more than 20 cents each, \$10.50 per thousand. (f) More than 20 cents each, \$13.50 per thousand. Weighing not more than 3 pounds per 1,000, 1 cent for each 10 or fraction thereof. Cigarettes, retailing for - (a) 1 cent each or less, 1 1/2 mills each. (b) More than 1 cent each, 15 percent of retail price. Smoking and chewing tobacco and snuff, 5 percent of retail price.
Texas	1931	Cigarettes weighing more than 3 pounds per 1,000, \$3.60 per thousand. Weighing not more than 3 pounds per 1,000, \$1.50 per thousand.
Utah	1923	Cigarettes weighing more than 3 pounds per 1,000, 2 mills each. Weighing not more than 3 pounds per 1,000, 1 mill each. Papers, 1/2 cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof.
Vermont	1937	Cigarettes, 1 mill each.
Washington	1935	Cigarettes, retailing for - (a) 1 cent each or less, 1/10 cent each. (b) More than 1 cent each, 20 percent of retail price.
Wisconsin	1939	Cigarettes weighing more than 3 pounds per 1,000, 2 mills each. Weighing not more than 3 pounds per 1,000, 1 mill each. Papers, 1/2 cent for each 50 or fraction thereof. Tubes, 1 cent for each 50 or fraction thereof.

Compiled from report of proceedings, Fourteenth Annual Convention of the National Tobacco Tax Conference, Sept. 15-17, 1940, and brought to date from records of the National Tobacco Tax Conference.

Table 46.-Rates of Federal tax on tobacco products in effect in the United States, July 1, 1941 <sup>1/</sup>

Product	Rate of tax
Cigars weighing more than 3 pounds per 1,000, retailing for -	
(A) 5 cents each or less.....	\$2 per thousand
(B) More than 5 and not more than 8 cents each .....	\$3 per thousand
(C) More than 8 and not more than 15 cents each .....	\$5 per thousand
(D) More than 15 and not more than 20 cents each .....	\$10.50 per thousand
(E) More than 20 cents each .....	\$13.50 per thousand
Weighing not more than 3 pounds per 1,000 .....	\$ 0.75 per thousand
Cigarettes weighing more than 3 pounds per 1,000 .....	\$ 7.80 per thousand <sup>2/</sup> <sup>3/</sup>
Weighing not more than 3 pounds per 1,000 .....	\$ 3.25 per thousand <sup>3/</sup>
Papers .....	1/2 cent for each 50 or fraction thereof
Tubes .....	1 cent for each 50 or fraction thereof
Smoking and chewing tobacco and snuff .....	18 cents per pound

<sup>1/</sup> As imposed by the Internal Revenue Act of Feb. 26, 1926.

<sup>2/</sup> The Revenue Act of May 10, 1934, amended the Revenue Act of Feb. 26, 1926, to provide that if cigarettes weighing more than 3 pounds per 1,000 were more than 6 1/2 inches in length they should be taxable at the rate imposed on cigarettes weighing less than 3 pounds per 1,000, counting each 2-3/4 inches or fraction thereof of the length of each as one cigarette.

<sup>3/</sup> Rate effective July 1, 1940, changed tax on large cigarettes from \$7.20 to \$7.80, and on small cigarettes from \$3.00 to \$3.25.

Compiled from internal revenue laws of the United States.

Table 50.- Byproducts diversion programs of the Agricultural Adjustment Administration for dark tobaccos, fiscal years, 1936-39 1/ - Continued

1/ The diversion programs of the Agricultural Adjustment Administration - which became effective in March 1936 - were designed to eliminate supplies of the dark types of tobacco in order to bring supplies in line with the declining consumption and exports of these types. The diverted tobacco was purchased from the stocks of cooperative associations, which were acquired through Commodity Credit Corporation loans and from purchases of current crops made by the associations. Besides diversion to byproducts (shown in this table) exports by the cooperative marketing associations were subsidized by the Agricultural Adjustment Administration. Purchases, also, were made through the Federal Surplus Commodities Corporation for fertilizer and for experimental uses by various organizations. Actual diversion sometimes took place after the fiscal year during which contracts were approved under each program.

2/ Storage-order basis.

3/ Farm-sales-weight basis.

4/ Total includes storage order of stocks and farm-sales weight of crop of each year of the 4 years in which diversion programs were effective.

5/ Cost to the Government. This is calculated as the difference between advances to cooperative associations (including handling, storage, and interest charges), and the prices paid by manufacturers for quantities purchased for use in byproducts. Average cost per pound is calculated on actual, not rounded, figures.

6/ By June 1938 surplus stocks of dark types had been eliminated. During the fourth and last year of the program only portions of the 1938 crop were diverted by the Agricultural Adjustment Administration.

Bureau of Agricultural Economics. Compiled from official records of the Agricultural Adjustment Administration.

Total	1,473	2,057	317	3,847	9,700	13,547	5.4	725

<sup>1/</sup> Exports by the cooperative marketing associations subsidized by the Agricultural Adjustment Administration and purchases through the Federal Surplus Commodities Corporation for fertilizer, and for experimental uses by various organizations.

<sup>2/</sup> Storage order basis.

<sup>3/</sup> Farm-sales weight; diverted during fiscal year ended June 1939.

<sup>4/</sup> Total includes storage order of stocks and farm-sales weight of crop of the year in which program was operative.

<sup>5/</sup> Cost to the Government. This cost represents export subsidies paid to cooperative associations on these exports of tobacco and the market price of quantities of tobacco donated to various organizations for fertilizer and for experimental uses. Average cost per pound is calculated on actual, not rounded, figures.

<sup>6/</sup> Includes 14,540 pounds of exports subsidized from the 1933 crop; 15,190 pounds from the 1934 crop; 124,370 pounds from the 1935 crop; and a total from the three crops of 154,100 pounds. The total cost was \$1,708.57 or 1.1 cents per pound. These subsidies were made during the fiscal year ended June 1937. Balances were diverted during the fiscal year ended June 1938.

<sup>7/</sup> Subsidized exports; cost, \$2,172.73 or 1.1 cents per pound; purchased during fiscal year ended June 1937.

Bureau of Agricultural Economics. Compiled from official records of the Agricultural Adjustment Administration.

Table 53.- Total diversion to byproducts, subsidies by the Agricultural Adjustment Administration, and total purchases through the Federal Surplus Commodities Corporation, dark tobacco programs, fiscal years ended June 1936-39 <sup>1/</sup>

Errata - ANNUAL REPORT ON TOBACCO STATISTICS, 1941

The next to the last paragraph in the introduction on page 1 should read:

"Consumption of tobacco products as indicated by tax-paid withdrawals for the fiscal year beginning July 1940 were as follows: Cigars, more than  $5\frac{1}{2}$  billion, cigarettes, nearly 190 billion, and chewing and smoking tobacco and snuff, about 343 million pounds."

Corrections in Table 26, page 81.

Table 26.-Tax-paid withdrawals of tobacco products from Puerto Rico by months, in the United States, 1939-41 1/

Month and year beginning July	Large cigars						Cigarettes	
	Class A:	Class B:	Class C:	Class D:	Class E:	Total	Large	Small
	Thou- sands	Thou- sands	Thou- sands	Thou- sands	Thou- sands	Thou- sands	Thou- sands	Thou- sands
*****								
1941
